### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Artz on January 10, 2005.

Claim 37 has been canceled in its entirety.

Claim 38. (New) A lacrosse goalie stick head comprising:

a base;

a pair of sidewalls that extend from said base and connect to a scoop located opposite said base;

an open area for receiving a lacrosse ball being defined by said pair of sidewalls and said scoop;

said open area having a generally spoon-like shape;

a throat portion extending rearwardly from said rear arcuate wall for connection with a lacrosse handle;

each of said pair of opposing sidewalls having at least one flange extending generally outwardly from said open area adjacent an upper portion of each of said sidewalls ;

and a plurality of support structures in contact with an underside of each of said at least one flange.

***Reasons for Allowance***

The prior art does not show or suggest a goalie lacrosse stick head wherein the frame element defines an open area for receiving a lacrosse ball and the two sidewalls of the head structure have at least one flange that extends generally outwardly from the upper portion of each sidewall whereby the sidewalls and flanges assist in directing the lacrosse ball into said open area.
